Junior Software Developer

Java | SQL | Problem-solver

Highlights of Skills

- An analytical software engineering student with a passion for creative problem-solving and a sharp ability for debugging, testing, and data visualization.
- Skilled in Data Structures and Algorithms, Java, C#, JavaScript, and Python for data analytics and PowerBi.
- Solid foundations in version control, Agile practices, SDLC, and technical documentation (SRS/SSD).
- Bilingual (Spanish and English)
- 4 months of work experience at Tribunals Ontario as a Systems Officer Co-op Student.

Relevant Experience

Systems Officer Coop Student | Tribunals Ontario

Jan 2025 - Apr 2025

- IT Asset Management, including setting up, testing computers, shipping and receiving, and updating records.
- Conducted IT Clinics training sessions to over 1000 staff members.
- Updated and maintained the SharePoint site.
- Ensured that the website content, PDF, and Word documents are accessible.
- Tested IT systems, manual testing, and recording test results

Tech Skills

Languages: Java, Python, C/C#, SQL, JavaScript, HTML/CSS.

Frameworks: React, Node.js, Flask.

Developer Tools: Git, Docker, Google Cloud Platform, VS Code, Visual Studio, PyCharm, IntelliJ, Eclipse, OpenAI API, Workflow Fundamentals (PowerAutomate), PowerBi, MongoDB and Firebase.

Libraries: Pandas, NumPy, Matplotlib, Plotly, Seaborn.

Education

Centennial College - Toronto, On

Sept 2023 - Present

Software Engineering Technology (Co-op) Advanced Diploma

GPA: 4.3/4.5 (A)

Courses: Java Programming | C# Programming, .NET and Microservices | Advanced Database Concepts (SQL) | Software Systems Design | Web Application Development | Unix/Linux Operating Systems | DS and Algorithms

Projects and Professional Development

Bookify | Flask, Plotly, Pandas, Render

- Developed a web app to generate visualizations handling large GoodReads readers' data files.
- Utilized data analysis industry-leading tools such as Pandas, Plotly, and Plotly Express.
- Deployed using Render and maintained version control with GitHub.

HTML, CSS, JavaScript (The Odin Project)

- Acquired solid foundations of HTML, CSS, JavaScript, React, Node JS
- Proficient in utilizing APIs to integrate diverse functionalities and streamline data exchange
- Projects including Landing Page, Etch-A-Sketch, Calculator, Admin DashBoard.

CS50: Introduction to Computer Science | EdX (Online)

Focus areas: C, Python, SQL, JavaScript, CSS, HTML, software security, and data structures

Introduction to Data Science with Python | Educative IO (Online)

Focus areas: Python libraries and data science visualization tools.

Other Work Experience

Front Desk and Receptionist

June 2024 - Present

Seal Swimming, Toronto, Ontario

- Recorded and kept track of attendance, feedback, and overall information on a company's database.
- Handled inquiries, requests, and questions about curriculum, health and safety standards, and general questions.
- Demonstrated capacity to work effectively independently with minimal supervision.
